

Information About Our Hospital Charges

Our top priority is to provide 24-hour ER and hospital facility care in a high quality, safe and affordable way. We offer both inpatient and outpatient services to provide personalized quality healthcare for each patient that walks through our door.

We want our patients we provide care for to have a clear understanding of its costs. Prairieville Family Hospital will share information about its charges to help families and the community understand their financial obligations for the service received at our facility. The links provided on this page are expected to help our patients estimate their out-of-pocket expenses such as deductibles, copayments, coinsurance, for any planned or unplanned visit.

Information About Our Standard Charges

See the links below for a comprehensive machine-readable file that includes the hospital's or entity's standard charges for all items and services: gross charges, discounted cash price, payer specific negotiated charges and de-identified minimum and maximum negotiated charges.

When projecting estimates please understand how the total bill is determined.

- Each patient share amount is determined by the patient's insurance coverage.
- Your final bill from the hospital will be made of different charges based on the services the provider used to treat your illness at our facility. Many factors such as time spent with the patient, the length of time to recover from the illness or the type of medications and supplies used will drive the charging of services.
- You may receive multiple bills for your stay, including separate bills from physicians not employed by Prairieville Family Hospital.
- Prairieville Family Hospital can assist you with projecting costs for a planned visit by contacting us at **225-755-9765**.
